

Ready to trade-in your old dot matrix printer for a new
High-performance, Low TCO Printronix Serial Dot Matrix Printer?

PRINTRONIX®

S809 & S828

SERIAL DOT MATRIX PRINTER

TRADE IN YOUR OLD PRINTER

The **Printronix S809 & S828** Serial Dot Matrix Printers have best in class printhead life, meantime between failures and workload capacity equating to the lowest cost of ownership (TCO). They are also the quietest in their class, only 54dBA, making them a good solution for both office and industrial environments.

Save
\$100

The 6-pin tractor handles thicker media (**up to 8-part forms**) better than laser and inkjet printers. A second front loading tractor is available for handling of two different types of forms.

PRINTRONIX S809

- » 24 pin printer: 900 cps @ 10cpi
- » Plug & play for legacy Tally, Dascom and other 24-pin printers
- » Automated & configurable zero-tear form feeding minimizes user intervention
- » Optional open pedestal printer stand and second front feed tractor

PRINTRONIX S828

- » 18 pin printer: 800 cps @ 10cpi
- » Plug & play for IBM, Epson, Genicom and other 9 or 18-pin printers
- » True IBM IPDS (optional)
- » Optional enclosed pedestal printer stand and second front feed tractor
